Please END this DROUGHT OF SECRETS!** The primary reason they want Lithium isn't even for the batteries. It's because when introduced to the human body, it increases the ability of their tech to control the minds of those who have it in their system. It also increases the ability of demons to possess people, as demons are energetic beings and people with lithium in their system can give those demons the greater ability of possessing a human host. They lost biotic control. MRNA was their only hope.
It isn't sufficient to replace.

Nature wins.

SECRET: the longer "they" put off nuclear war, the more that the nukes become unusable due to the nuclear transmutation occurring inside their fissile cores!!! That means that they become duds, and cannot detonate anymore!!!

Update- I got some more details but not much.
I'm not here to tell you to uproot your life unless you've already been considering it. I don't have exact dates, and I'm not going to pretend I do. What I can say is the chatter is about both coasts , not just one and the fact they're not specifying a timeline tells me it's the kind of thing they want people to be quietly ready for at any time.

My advice? Prepare as best you can without disrupting your life. That means having a plan, stocking essentials, and knowing where you'd go if you had to leave quickly. I'm not telling anyone to run , I'm telling you to be ready to walk out the door if the moment comes.

Re: SUMMONING ANY ELITE-INSIDERS and/or ANONS WITH SUPER-SPECIAL UNCLE-INTELS NOW! Please END this DROUGHT OF SECRETS!

Wicked sinner sent:

The U.S. And Israel Are Planning Another Attack On Iran
An Extremely Sensitive Source has conveyed to me, that China has successfully transported "Over 800" missiles to
Iran, to be used to defend against Israel. The source did not (or could not) indicate the type or range of missile, but clearly stated "they can reach all of Israel."

Over the pat ten days, scattered and infrequent "chatter" on Intel Circuits has been claiming that the US and Israel are
planning another attack upon Iran. One such claim from a different source deemed VERY reliable, stated "there are 31
separate targets inside Iran to be hit." The source did not reveal what those targets are or where they are.

I know this is all very vague. That aggravates me, as much as I suppose it aggravates you. But I'm not in the Intel
Community anymore, and there is great risk to the people who are, if they reveal something they shouldn't. So I have to accept what I get, figure out if it is intentional disinformation, try to corroborate it, and if I can, I report only that which will not reveal sources or methods, or endanger the lives of my countrymen who are still in the Intel Community.. It's not easy.

My response:
You are probably just hearing rumor. Iran has approximately 200,000 pin point accurate high payload missiles that can
all hit Israel, why would China give Iran whatever crap they make, unless it is nuclear tipped - that would change the
balance sheet. Doubt it. Due to the fact that Iran needs absolutely no help from China, call me skeptical.

It would be a lot more believable without the 800 Chinese missiles. By the way, I don't know how it can be done, but

supposedly Iran has made their missiles capable of only conventional payloads. IF china just gave Iran nukes, they would need different missiles to put them on. SKEPTICAL.
